Region: national parks in Sjaelland and Bornholm

Compensated /improved ecosystem services

Recreation and tourism

Management

Til-Tops is a Northern European outdoor activity company that develops, consults and owns tree-climbing and other nature activity parks. It established tree climbing facilities in forest areas where public can pay to enjoy the service. They own the forest areas where develop nature-based outdoor activities. Til-Tops offers consultancy to who want to start a similar business, offers franchise contracts being able to establish four climbing areas in Denmark, and shared services for small businesses in the outdoor activity space. They design, build, help with applications, permissions, documentation and all the admin that comes afterwards. Franchisees benefit from the Til-Tops knowledge, experience and services.
