Introduction

In 2011, in the Oslo Ministerial Decision; European Forests 2020, ministers responsible for European forests made a number of commitments, notably the Goals for European Forests and the European 2020 Targets for Forests. The eighth Ministerial Conference on the Protection of Forests in Europe, to be held in Bratislava in 2020, will review progress towards these goals and targets, as well as carrying out the regular study on the State of Europe's Forests, based on the pan-European criteria and indicators of sustainable forest management. The study will serve as background information to shape political and technical discussions on future opportunities and challenges, and political responses to these developments.

To improve data quality and to reduce the reporting burden, the reporting processes for the goals and targets and for the qualitative indicators of sustainable forest management are being combined, as there is significant overlap in the areas on which information is needed. This enquiry requests information on progress towards the goals and targets, which mostly concern measures and actions at the national level, as well as information on the qualitative indicators on sustainable forest management, which concern legal, institutional, policy, financial and informational instruments. Information provided for this enquiry, combined with the parallel enquiry on the quantitative indicators of sustainable forest management, will provide sufficient information for the State of Europe's Forests 2020, which will also report on progress towards the goals and targets.

This enquiry is structured according to the updated pan-European qualitative indicators for sustainable forest management, as adopted in Annex 1 to the Madrid Ministerial Declaration 2015. In completing the enquiry, you may wish to consult the following sources of information on policies and institutions:

STATE OF EUROPE'S FORESTS 2015:

<http://foresteurope.org/state-europes-forests-2015-report/>

Background information for the updated pan-European indicators for sustainable forest management:

http://foresteurope.org/wp-content/uploads/2016/10/3AG_UPI_Updated_Backgr_Info.pdf

FAO-LEX: <http://faolex.fao.org/faolex>

All FOREST EUROPE members are also members of the UN Forum on Forests, which will also invite members to report, on a voluntary basis, on progress towards the Global Forest Goals and Targets for a report scheduled for 2021. The two processes (global and pan-European) are formally quite separate, but clearly overlap in subject matter. To the extent possible, this reporting format has been designed to reduce the reporting burden, so that respondents may provide the same information in both fora.

For more information please contact Liaison Unit Bratislava
(Liaison.Unit.Bratislava@foresteurope.org, rastislav.rasi@foresteurope.org)

Deadline for submission: 31 October 2018

Part 1: Reporting on progress towards the Goals for European Forests and the European 2020 Targets for Forests

With regard to the Forest Europe Work Programme 2016-2020, activity 4.2.4, please provide information, following the template below, on the major actions and measures taken in your country to achieve the Goals for European Forests and the European 2020 Targets for Forests. In the interests of analysis and to facilitate the identification of regional trends, please keep your answer short, restricting yourself to the five most important actions or measures, and identifying a maximum of five remaining challenges. If you wish to list more actions, or provide more detail, please do so in a separate message.

Please ensure that all the actions/measures and challenges you list are directly connected to the specific goal or target, and not to more general forest governance measures (which are addressed in the next part of this enquiry).

Goals for European Forests

During the FOREST EUROPE Ministerial Conference held in 2011 in Oslo, Norway, ministers responsible for forests in Europe adopted eight “Goals for European Forests” which are of long term nature. The below questions relate to the progress so far achieved.

Goal I. Sustainable management of all European forests ensures multiple forest functions and enhances lasting provision of goods and services

Please describe a maximum of five major actions and measures taken towards achieving Goal I (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Maintain and strengthen risk prevention and control policy
Action / Measure 2	Restore a proper balance between woodland and game
Action / Measure 3	Mitigate the uncertainties arising from climate change
Action / Measure 4	Make forest management more dynamic
Action / Measure 5	Know, preserve and add value to biodiversity

Please describe a maximum of five major remaining challenges to achieve Goal I (maximum of 100 words per challenge, please)

Challenge 1	Creation of jobs and value-added
Challenge 2	Protection of soils and water quality
Challenge 3	Regional development
Challenge 4	Exploitation of wood
Challenge 5	Adaptation to climate change

Goal II. European forests contribute to a green economy, including through increased provision of wood, other forest products and ecosystem services from sustainable sources

Please describe a maximum of five major actions and measures taken towards achieving Goal II (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Support enhancements of competitiveness
Action / Measure 2	Encourage to use wood as a material
Action / Measure 3	Adopt an offensive stance in international markets in conjunction with the sector strategy committee (CSF)
Action / Measure 4	An ambitious national plan “Forest and wood R& D and innovation 2025”
Action / Measure 5	Seek to ensure optimum interfacing of the different uses of wood conjunction with the wood sector strategy committee (CSF)

Please describe a maximum of five major remaining challenges to achieve Goal II (maximum of 100 words per challenge, please)

Challenge 1	Energy transition
Challenge 2	Regional development
Challenge 3	Exploitation of wood
Challenge 4	Adaptation to and mitigation of climate change
Challenge 5	Creation of jobs and value-added

Goal III. Forest management in Europe is being adapted to changes in climate, forests are healthy and resilient to natural hazards and protected against human-induced threats such as forest fires, and the productive and protective functions of forests are maintained

Please describe a maximum of five major actions and measures taken towards achieving Goal III (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Maintien and strengthen risk prevention and control policy
Action / Measure 2	Restore a proper balance between woodland and game
Action / Measure 3	Mitigate the uncertainties arising from climate change
Action / Measure 4	Make forest management more dynamic
Action / Measure 5	Gain more knowledge of the services provided by functioning forest ecosystems

Please describe a maximum of five major remaining challenges to achieve Goal III (maximum of 100 words per challenge, please)

Challenge 1	Research and development aimed at proposing new models for forest management
Challenge 2	

	Formation of groups of forest owners
Challenge 3	Use of digital technology
Challenge 4	Easy access to on-line platforms providing economic and mapping data
Challenge 5	Better regulation of the development of wild ungulates that prevent proper growth of young shoots

Goal IV. The potential of European forests to mitigate climate change, through carbon sequestration in trees and soils, carbon storage in forest products and substitution of non-renewable materials and energy sources, is utilised to minimise Europe’s ecological footprint without harming the global carbon balance

Please describe a maximum of five major actions and measures taken towards achieving Goal IV (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	National Low-Carbon Strategy 2 (SNBC2)
Action / Measure 2	National Plan for Adaptation to the Impacts of Climate Change (PNACC2)
Action / Measure 3	Subsidies to improve stands with low economic value
Action / Measure 4	Seek to ensure optimum interfacing of the different uses of wood conjunction with the wood sector strategy committee (CSF)
Action / Measure 5	Optimise the support provided to the sector and promote the use of wood in buildings

Please describe a maximum of five major remaining challenges to achieve Goal IV (maximum of 100 words per challenge, please)

Challenge 1	Developing markets for hardwood products and reduce production costs of hardwood products
Challenge 2	

	Formation of groups of forest owners
Challenge 3	Use of digital technology
Challenge 4	Easy access to on-line platforms providing economic and mapping data
Challenge 5	Better regulation of the development of wild ungulates that prevent proper growth of young shoots

Goal V. The loss of forest biodiversity in Europe is halted and degraded forests are restored or rehabilitated

Please describe a maximum of five major actions and measures taken towards achieving Goal V (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Improve biodiversity knowledge through research and development
Action / Measure 2	Educate and modernise communication relating to biodiversity
Action / Measure 3	Preserve biodiversity
Action / Measure 4	Add value to biodiversity
Action / Measure 5	Gain more knowledge of the services provided by functioning forest ecosystems

Please describe a maximum of five major remaining challenges to achieve Goal V (maximum of 100 words per challenge, please)

Challenge 1	Prepare for the future
Challenge 2	Adaptation to climate change
Challenge 3	Protection of soils and water quality

Challenge 4	Use of digital technology
Challenge 5	Easy access to on-line platforms providing ecological mapping data

Goal VI. The role of forests in combating the progress of desertification is strengthened

Please describe a maximum of five major actions and measures taken towards achieving Goal VI (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	/
Action / Measure 2	/
Action / Measure 3	/
Action / Measure 4	/
Action / Measure 5	/

Please describe a maximum of five major remaining challenges to achieve Goal VI (maximum of 100 words per challenge, please)

Challenge 1	/
Challenge 2	/
Challenge 3	/
Challenge 4	/
Challenge 5	/

Goal VII. Socioeconomic and cultural benefits, especially for livelihoods, rural development and employment from European forests are optimised

Please describe a maximum of five major actions and measures taken towards achieving Goal VII

(maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Educate, modernise communication
Action / Measure 2	Organise the links between sector professionals more effectively
Action / Measure 3	An ambitious national plan “Forest and wood R& D and innovation 2025”
Action / Measure 4	Strengthen training in the sector alongside the wood sector strategy committee
Action / Measure 5	Optimise the support provided to the sector

Please describe a maximum of five major remaining challenges to achieve Goal VII (maximum of 100 words per challenge, please)

Challenge 1	Settle Regional Forest and Wood Programme (PRFB) and involve local authorities
Challenge 2	Creation of jobs and value-added
Challenge 3	Use of digital technology
Challenge 4	Easy access to on-line platforms providing mapping data
Challenge 5	Protection of soils and water quality

Goal VIII. Illegal logging and associated trade in wood and other forest products are eliminated in Europe;

Please describe a maximum of five major actions and measures taken towards achieving Goal VIII (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Strengthen area covered by a forest management plan
Action / Measure 2	Support exports of french products
Action /	

Measure 3	Modify national forest regulatory framework for cutting permission
Action / Measure 4	Adopt an offensive stance in international markets in conjunction with the sector strategy committee (CSF)
Action / Measure 5	Strengthen the practical application of European Union Timber Regulation by operators

Please describe a maximum of five major remaining challenges to achieve Goal VIII (maximum of 100 words per challenge, please)

Challenge 1	Educate, modernise communication
Challenge 2	Use of digital technology
Challenge 3	Easy access to on-line platforms providing mapping data
Challenge 4	Involve local authorities
Challenge 5	Formation of groups of forest owners

European 2020 Targets for Forests

During the FOREST EUROPE Ministerial Conference held in 2011 in Oslo, Norway, ministers responsible for forests in Europe adopted also nine “European 2020 Targets for Forests”. These targets are supposed to be achieved by 2020 and the below questions focus on information related to the extent of achievement.

Target I. All European countries have developed and are implementing national forest programmes, or its equivalent, in line with the shared vision and goals and the pan-European approach to national forest programmes

Please describe a maximum of five major actions and measures taken to achieve Target I (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	National Forest and Wood Programme settled for 2016-2026
Action /	

Measure 2	Creation of monitoring indicators
Action / Measure 3	Regular assessment
Action / Measure 4	Setting up a committee to track and evaluate application of PNFB
Action / Measure 5	Implementation of 13 Regional Forest and Wood Programmes (PRFB)

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target I (maximum of 100 words per challenge, please).

Challenge 1	Midterm quantitative assessment at
Challenge 2	Designing new monitoring indicators
Challenge 3	Involve local authorities
Challenge 4	
Challenge 5	

Target II. In addressing emerging issues forest knowledge is improved through research, education, innovation, information sharing and communication

Please describe a maximum of five major actions and measures taken to achieve Target II (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Implementation of the on-line platform "La Forêt Bouge" providing mapping
--------------------	---

	economic data
Action / Measure 2	Settling education programs for youth
Action / Measure 3	To communicate on forest sector and new functions of forests for the 21th century
Action / Measure 4	Federate existing professional structures
Action / Measure 5	To implement a Forest and wood plan for research development and innovation (RDI 2025)

Do you consider the target to be achieved at national level?

- Target fully achieved
 On track to achieve target (we expect to achieve the target by 2020)
 Progress to achieve target (but we do not expect to achieve the target by 2020)
 No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target II (maximum of 100 words per challenge, please).

Challenge 1	Easy access to on-line platforms providing mapping data
Challenge 2	Strengthen training in the sector alongside the wood sector strategy
Challenge 3	Organise the links between sector professionals more effectively
Challenge 4	Educate, modernise communication
Challenge 5	Use of digital technology

Target III. In response to political objectives on the use of renewable raw material and energy in Europe, the supply of wood and other forest products from sustainably managed forests has increased substantially

Please describe a maximum of five major actions and measures taken to achieve Target III (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Improve stand
Action / Measure 2	Encourage to use wood as a material
Action / Measure 3	Make forest management more dynamic
Action / Measure 4	An ambitious national plan “Forest and wood R& D and innovation 2025”
Action / Measure 5	Seek to ensure optimum interfacing of the different uses of wood conjunction with the wood sector strategy committee (CSF)

Do you consider the target to be achieved at national level?

- Target fully achieved
 On track to achieve target (we expect to achieve the target by 2020)
 Progress to achieve target (but we do not expect to achieve the target by 2020)
 No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target III (maximum of 100 words per challenge, please).

Challenge 1	Energy transition
Challenge 2	Regional development
Challenge 3	Exploitation of wood
Challenge 4	Adaptation to and mitigation of climate change
Challenge 5	Creation of jobs and value-added

Target IV. The full value of forest ecosystem services across Europe is being estimated with a view to using common valuation approaches, and that values are increasingly reflected in relevant national policies and market-based instruments such as payments for ecosystem services

Please describe a maximum of five major actions and measures taken to achieve Target IV (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Gain more knowledge of the services provided by functioning forest ecosystems
Action / Measure 2	Know, preserve and add value to biodiversity
Action / Measure 3	Create of platform to make an inventory of forest amenities
Action / Measure 4	Educate, modernise communication
Action / Measure 5	Meet the expectations of the general public and integrate region-wide projects

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target IV (maximum of 100 words per challenge, please).

Challenge 1	Use of digital technology
Challenge 2	Easy access to on-line platforms providing mapping data
Challenge 3	Protection of soils and water quality
Challenge 4	Regional development

Challenge 5	Adaptation to climate change
-------------	------------------------------

Target V. All European countries include strategies for forests and climate change adaptation and mitigation in national forest programmes or equivalents and all other relevant national strategies

Please describe a maximum of five major actions and measures taken to achieve Target V (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	National Low-Carbon Strategy 2 (SNBC2)
Action / Measure 2	National Plan for Adaptation to the Impacts of Climate Change (PNACC2)
Action / Measure 3	Subsidies to improve stands with low economic value
Action / Measure 4	Seek to ensure optimum interfacing of the different uses of wood conjunction with the wood sector strategy committee (CSF)
Action / Measure 5	Optimise the support provided to the sector and promote the use of wood in buildings

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target V (maximum of 100 words per challenge, please).

Challenge 1	Energy transition
Challenge 2	Regional development
Challenge 3	Exploitation of wood

Challenge 4	Developing markets for hardwood products and reduce production costs of hardwood products
Challenge 5	

Target VI. The rate of loss of forest biodiversity at habitat level is at least halved and where feasible brought close to zero, and measures are taken to significantly reduce forest fragmentation and degradation and to restore degraded forests

Please describe a maximum of five major actions and measures taken to achieve Target VI (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Improve biodiversity knowledge through research and development
Action / Measure 2	Educate and modernise communication relating to biodiversity
Action / Measure 3	Preserve biodiversity
Action / Measure 4	Add value to biodiversity
Action / Measure 5	Gain more knowledge of the services provided by functioning forest ecosystems

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target VI (maximum of 100 words per challenge, please).

Challenge 1	Prepare for the future
Challenge 2	

	Adaptation to climate change
Challenge 3	Protection of soils and water quality
Challenge 4	Use of digital technology
Challenge 5	Easy access to on-line platforms providing ecological mapping data

Target VII. The role of forests in combating desertification is fully recognised and forests are also managed to that end

Please describe a maximum of five major actions and measures taken to achieve Target VII (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	/
Action / Measure 2	/
Action / Measure 3	/
Action / Measure 4	/
Action / Measure 5	/

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target VII (maximum of 100 words per challenge, please).

Challenge 1	/
-------------	---

Challenge 2	/
Challenge 3	/
Challenge 4	/
Challenge 5	/

Target VIII. All European countries have policies and measures which ensure a significant increase in socio-economic and cultural benefits, especially for human health, livelihoods, rural development and employment from forests

Please describe a maximum of five major actions and measures taken to achieve Target VIII (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Maintain and strengthen risk prevention and control
Action / Measure 2	Gain more knowledge of the services provided by functioning forest ecosystems
Action / Measure 3	Create of platform to make an inventory of forest amenities
Action / Measure 4	Strengthen training in the sector
Action / Measure 5	Meet the expectations of the general public and integrate region-wide projects

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve

Target VIII (maximum of 100 words per challenge, please).

Challenge 1	Prepare for the future
Challenge 2	Adaptation to climate change
Challenge 3	Protection of soils and water quality
Challenge 4	Use of digital technology
Challenge 5	Easy access to on-line platforms providing social and economic mapping data

Target IX. Effective measures are taken at regional, sub-regional and national levels to eliminate illegal logging and associated trade

Please describe a maximum of five major actions and measures taken to achieve Target IX (maximum of 100 words per action, please). Please indicate, if an action or measure could be referenced as Best Practice Example.

Action / Measure 1	Strengthen area covered by a forest management plan
Action / Measure 2	Support exports of french products
Action / Measure 3	Modify national forest regulatory framework for cutting permission
Action / Measure 4	Adopt an offensive stance in international markets in conjunction with the sector strategy committee (CSF)
Action / Measure 5	

Do you consider the target to be achieved at national level?

- Target fully achieved
- On track to achieve target (we expect to achieve the target by 2020)
- Progress to achieve target (but we do not expect to achieve the target by 2020)
- No progress

If not fully achieved, please describe a maximum of five major remaining challenges to achieve Target IX (maximum of 100 words per challenge, please).

Challenge 1	
Challenge 2	
Challenge 3	
Challenge 4	
Challenge 5	

Part 2: Reporting on the pan-European Qualitative Indicators

Reporting on pan-European Qualitative Indicators consists of five overall forest policy and governance indicators (Indicators 1-5) and indicators for policies, institutions and instruments related to 6 criteria for SFM (Indicators C1-6).

Please see Annex 1 for “Terms and Definitions”.

For reporting, please note the following:

1. All requests for responses are limited to approximately 100 words or 650 letters (including blank spaces) automatically in order to keep the analytical efforts within reasonable bounds. If you wish to provide more detail, please do so in a separate message.
2. Significant changes since 2014 will be analysed systematically. If no information is provided, that will be interpreted as “no significant change”.
3. Please provide further information on the measures taken, as deemed relevant, e.g. major partners in implementation, period, and budget involved experiences made (lessons learned, obstacles encountered and solutions).
4. Please provide the latest information available unless otherwise specified.
5. Please specify reference documents as follows: - Author or institution. Year of publication (if published). Title. Reference Number. Publisher, Link;
6. In terms of indicators C1-C6, please report only these changes in policies, institutions and instruments that are related specifically to the individual criteria, the overall status and changes related to the SFM should be reported under indicators 1-5.

2A: Forest Policy and Governance

The five overall Forest policy and governance indicators cover the overall policy approaches, institutions and instruments for implementation and communication of SFM:

1. National Forest Programmes (NFPs) or equivalent;
2. Institutional frameworks;
3. Legal/regulatory framework: National (and/or sub-national) and international commitments;
4. Financial and economic instruments;
5. Information and communication.

1. National forest programmes (NFP) or equivalent	
NFP or equivalent process/documents for forest related dialogue, policy development & implementation	
Existence of NFP or equivalent process	<input checked="" type="checkbox"/> Yes, at national level <input type="checkbox"/> Yes, at subnational level <input type="checkbox"/> No <input type="checkbox"/> Under elaboration

Main formal decision making body of the process	<input type="checkbox"/> Ministry responsible for forestry <input checked="" type="checkbox"/> Body with members other than Ministry responsible for forestry <input type="checkbox"/> Other. Please specify:	
Significant changes related to the NFP or equivalent process since 2014	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If yes, please describe the reason/s for and type of changes [max.100 words]:
	A new national forest program. (2016-2026)	
Key lessons learned on the NFP process or similar	Please specify [max. 100 words], particularly on the NPF principles related to NFP as iterative process, stakeholder participation and approaches to inter-sectoral coordination and collaboration:	
	debates between forest stakeholders. Participatory process to elaborate monitoring indicators. Arbitration of ministries in charge of forest and environment	
Main forest policy document other than law (such as national forest programme, forest policy statement, strategy or other)	Name: Regional Forest and Wood Programs Internet link: Starting year: 2019	

		Yes explicit	Partially	No
Inclusion of FOREST EUROPE (FE) instruments in the main forest policy document	o FE definition of SFM	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	o FE criteria and indicators for SFM	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	o FE guidelines for NFPs	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	o FE Classification of Protected and Protective Forests and Other Wooded Land	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	o FE Pan-European Operational Level Guidelines for Sustainable Forest Management.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	o FE Pan-European Guidelines for Afforestation and Reforestation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Evaluation of the implementation of NFP or similar process	<input checked="" type="checkbox"/> Periodically, pre-specified in the main forest policy document <input type="checkbox"/> Irregularly conducted <input type="checkbox"/> Not specified <input type="checkbox"/> Other:	
Binding status of the main (other than law) forest policy document	<input type="checkbox"/> Compulsory <input checked="" type="checkbox"/> Recommendatory	
Allocation of financial resources for the implementation of NFP or equivalent document / process)	<input checked="" type="checkbox"/> Bulk allocation <input type="checkbox"/> Goal-specified allocation <input type="checkbox"/> Relying on external resources <input type="checkbox"/> Not specified, not planned <input type="checkbox"/> Other:	
	& Goal-specified allocation& Relying on external resources	
Significant changes related to the main forest policy document during last five years	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If yes, please describe the reason/s for and type of changes [max.100 words]
	A new national forest program. (2016-2026)	

<p>Existence of other overall policy instruments/ documents from the sector or other sectors that explicitly encourage SFM or address key forest policy issues</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <p>Title: National and regional Directives of forest management for public forests. Regional Orientations of private forests</p> <p>Internet links: http://www.onf.fr/lire_voir_ecouter/sommaire/editions_onf/+conf++649701528/@@display_medias.html?datatype=int=15 http://agriculture.gouv.fr/politique-forestiere-les-schemas-regionaux-degestion-sylvicoles-srgs</p>
Reporting notes	
<p>1 "Formal NFP process" means a process which is formally and explicitly acknowledged and referred to as an "NFP process" acc. Vienna Resolution 1 (http://foresteurope.org/docs/MC/MC_vienna_resolutionV1.pdf).</p>	

2. Institutional frameworks				
	Please specify the type of forest-related institutional arrangements according to their responsibility	Part of ministry	Sub-national ministries or similar bodies	Other bodies. Please specify below
Government bodies and public organizations	<ul style="list-style-type: none"> - forest policy administration - legislative supervision & enforcement - support to private forest management - management of public forests - forest management planning - forest inventory - research (Target 2) <p>Other. Please specify: Also Sub-national ministries or similar bodies: - forest policy administration - legislative supervision & enforcement</p>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
	Comments [max. 100 words]			
Forest-related staff ² Resources and capacity of government bodies and public organizations related to forests (Goals 7, Target 8)	Name or group/type ¹ :			2017; Full time equivalent
	Total			
	...of which forest administration ³			

	...of which management of public forests	
	...of which public forest research, education and training institutions and other specialized agencies	
	... of which other permanent or temporary workers	
	Comments [max. 100 words] Difficulties to assess full time equivalent. Bureau d'Economie théorique et appliquée	
Significant changes in the institutional framework, public and private, during last 5 years	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, please describe and incl. reason/s for the changes [max. 100 words]	
Policies, objectives and measures/actions taken in:	Forest-related research (Target 2) Please explain [max. 100 words] and provide reference documents where relevant. To improve knowledge about climate change and mitigate the uncertainties arising from climate change. To know, preserve and add value to biodiversity	
	Forest-related training and education (Target 2) Please explain [max. 100 words] and provide reference documents where relevant. Setting up of education programm “ la forêt s'invite à l'école”	
	Forest-related capacity building in other institutional framework Please explain [max. 100 words] and provide reference documents where relevant. Implementation of the plateform “La forêt Bouge” to exchange economic and mapping datas http://www.laforetbouge.fr/	
	Comments [max. 100 words]	
Reporting notes		

1. Please provide aggregated figures for each group/type of organizations, including all levels of government. Publicly owned business entities should be excluded. Where it is impossible or inappropriate to separate the activities of publicly owned business entities from other public sector activities in forest sector, this should be noted and staff of the entities should be included in the table. Please specify in the space left for comments which institutions are included (or not) in the figures you provide.
2. Forest-related staff in public organizations includes human resources within public forest institutions at subnational level. This refers to professionals as well as administrative staff.
3. "Forest administration" includes the first three sub-categories mentioned in the previous part of the table, i.e. forest policy administration, legislative supervision & enforcement, and support to private forest management.

Proportion of forest and other wooded land under a management plan or equivalent instrument						
Forest-related management document	Use of document in the country		Forest area under document		Other wooded land area under document	
	Yes	No	Ha	%	Ha	%
• Management plan	<input checked="" type="checkbox"/>	<input type="checkbox"/>	7 346 000	43,6		
• Equivalent of management plan	<input checked="" type="checkbox"/>	<input type="checkbox"/>	243 000			
• Other forest-related type of management document/instrument at operational level	<input type="checkbox"/>	<input type="checkbox"/>	48 000			
Are forest management plans an obligatory instrument?					Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Are the forest-related management plans / equivalents / other types of management documents registered with official body?					Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Are the measures of forest management plans compulsory?				Yes <input checked="" type="checkbox"/>	Partially <input type="checkbox"/>	No <input type="checkbox"/>
Do forest management plans regulate:				Yes	Partially	No
Volume of harvest				<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Regeneration systems				<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Reforestation species composition				<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Tending and other silvicultural operations				<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Deadwood volume				<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Comments: Information on FMPs in 2015.						

Proportion of forest and other wooded land under third party certification schemes

Certification scheme	Use of scheme in the country		Forest area under scheme		Other wooded land area under scheme	
	Yes	No	Ha	%	Ha	%
• Forest Stewardship Council certification (FSC) scheme	<input checked="" type="checkbox"/>	<input type="checkbox"/>	56302	0,3		
• Programme for the Endorsement of Forest certification (PEFC)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	8012846	47,2		
• Other international forest management certification	<input type="checkbox"/>	<input type="checkbox"/>				
• Other country specific management certification	<input type="checkbox"/>	<input type="checkbox"/>				
• Overlapping of certification schemes	<input type="checkbox"/>	<input type="checkbox"/>				
Comments: (June 2018) for PEFC in metropolitan France and overseas French territory						

3. Legal/regulatory frameworks and international commitments		
Legal/regulatory frameworks		
General characteristics of legal/regulatory framework – formal authority on main forest matters is laid down	<input type="checkbox"/> in constitution <input checked="" type="checkbox"/> in legislation enacted by parliament <input type="checkbox"/> in administrative decrees / regulations <input type="checkbox"/> other: also in in administrative decrees /regulations and other: decrees at national and local levels	<input checked="" type="checkbox"/> at national level <input type="checkbox"/> at sub-national level <input type="checkbox"/> other: also at sub-national level
Main forest and SFM related legal/regulatory act with national scope (e.g. Forest law, act, code or similar document)	Name and reference to legal document:	Forest code and LAAF
	Date of enactment:	2016
	Date of latest amendment:	2016
Significant changes in the legal/regulatory framework during last 5 years	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If yes, please describe and incl. reason/s for the changes [max. 100 words]	

International commitments				
Are the following FOREST EUROPE instruments explicitly referred to in the legal/regulatory act?	FOREST EUROPE Definition of SFM FOREST EUROPE C&I for SFM Other: please specify	Fully <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Partially <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	No <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Main international commitments related to forests signed by the country	CBD AICHI UNCCD UNFCCC Kyoto Protocol Paris Agreement Alpine Convention Carpathian convention Other: Please specify	Yes <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	No <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	
Significant initiatives undertaken during last 5 years in implementation of international commitments related to forests signed by your country	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe and incl. reason/s for the changes [max. 100 words] Ratification of Paris agreement on climate after COP 21			
Comments	Please explain [max. 100 words] and provide reference documents where relevant.			

4. FINANCIAL AND ECONOMIC INSTRUMENTS

Main characteristics of economic policy related to forests	<p>Please specify objectives of main measures taken to address economic aspects of <u>publicly owned forests</u> [max. 100 words]</p> <p>To increase wood harvest in cityowned forest. To maintain harvest wood in state-owned forests.</p>
	<p>Please specify objectives of main measures taken to address economic aspects of <u>privately owned forests</u> or other [max. 100 words]</p> <p>To increase wood harvest. To simplify and harmonise management plan in a unique document.</p>
<p>Significant changes in economic policy related to forests (public and private) during the last five years</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, please describe and incl. reason/s for the changes [max. 100 words]</p>
<p>Comments</p>	<p>Please explain [max. 100 words] and provide reference documents where relevant.</p>
<p>State/federal forests management</p>	<p>Please specify financial arrangements related to state-owned forests and their management</p> <p><input checked="" type="checkbox"/> Profit-making or financially self-sufficient forest management <input type="checkbox"/> Additional financial support from a state budget to forest management <input type="checkbox"/> Other. Please specify: & Additional financial support from a state budget to forest management</p>
<p>Comments</p>	<p>Please explain [max. 100 words] and provide reference documents where relevant.</p>

<p>Government financial instruments applied to private forest management</p>	<p>Please specify the use of financial instruments for private forests and their management. <i>For the EU Member States, please specify separately expenditure connected to the EU Rural Development Programme Funds.</i></p> <p><input checked="" type="checkbox"/> Grants/subsidies, Please specify:</p> <p style="padding-left: 20px;">?</p> <p><input type="checkbox"/> of which RDPF. Please specify:</p> <p><input type="checkbox"/> Loans. Please specify:</p> <p><input checked="" type="checkbox"/> Tax measures. Please specify:</p> <p style="padding-left: 20px;">incentive tax measures ? YES.</p> <p><input type="checkbox"/> Other. Please specify:</p>		
<p>Comments</p>	<p>Please explain [max. 100 words] and provide reference documents where relevant.</p>		
<p>Year:</p>	<p>Total (million, national currency)</p>	<p>Of that private sources, if available (million, national currency)</p>	
<p>Operational expenditure¹</p>	<p>?</p>	<p>?</p>	
<p>Transfer payments to private forests²</p>	<p>?</p>	<p>?</p>	
<p>Cost of forest administration³ (not including the costs associated with managing public forests):</p>	<p>?</p>	<p>?</p>	
<p>of which...</p>	<p>Forest administration</p>	<p>?</p>	<p>?</p>
	<p>Public forest research</p>	<p>?</p>	<p>?</p>
	<p>Forest education and training institutions</p>	<p>?</p>	<p>?</p>

	Other institutions. Please specify: We don't have these informations as it is requested and counted. It is impossible for France to fill in this board.	?	?
Total expenditure	?	?	

If transfer payments are made to private forests, indicate for what specific objective(s) – Please tick all that apply.	<input checked="" type="checkbox"/> Reforestation <input type="checkbox"/> Afforestation <input type="checkbox"/> Forest inventory and/or planning <input checked="" type="checkbox"/> Conservation of forest biodiversity <input type="checkbox"/> Protection of soil and water <input checked="" type="checkbox"/> Forest stand improvement <input type="checkbox"/> Climate change adaptation <input type="checkbox"/> Establishment or maintenance of protected areas <input type="checkbox"/> Recreation <input type="checkbox"/> Other, please specify:
Comments	Please explain [max. 100 words] and provide reference documents where relevant. Restoration of forest cover after storms + forest stand improvement through “Dynamic Bois”
Reporting notes	

Please specify the **year** which the data refers to in the intended box.

1. **Operational expenditure** includes public and private domestic or external sources of finance (personnel, materials, operating costs) for operational forest activities (e.g. silvicultural and protective measures). It also includes expenditure on contract or outsourced activities. It also includes the operating costs associated with any forest sector incentive schemes.

It excludes public and private capital expenditure on investments in accordance with the national tax laws (construction and maintenance of forest roads, buildings; investments to equipment, tools, vehicles, machinery and technologies and other investments e.g. IT and/or intangible investments etc.). Data on capital expenditure are included in the questionnaire on quantitative indicators (indicator 6.4).

it should exclude the expenditure of publicly owned business entities. Where it is impossible or inappropriate to separate the activities of publicly owned business entities from other public sector activities in forest sector, this should be noted and expenditure of the entities should be included in the table. In this case, please specify in the space left for comments which institutions you included (or not).

It also excludes expenditure on: marketing; trade facilitation; or development projects, where forest is not the main focus of activities.

2. **Transfer payments to private forests** includes all government expenditures (including external) on direct financial incentives (grants or subsidies) paid to non-government and private-sector institutions, enterprises, communities or individuals operating in the forest sector to implement forest related activities. It excludes tax incentives; government loans; benefits in kind (free or subsidized materials and/or advice). It also excludes direct financial incentives available to all individuals and enterprises not specifically related to forest related activities (e.g. relocation grants, employment subsidies, general training grant schemes).
3. **Cost of forest administration** is government expenditure on public institutions solely engaged in the forest sector. It includes all public expenditure (including external) on implementing forest policy and legislation to the entire forest areas, mainly: expenditures for state administration bodies, support to other forest

Are any types of Payments for Ecosystem Services (PES) schemes applied in your country?

- Yes, at public level
 Yes, at private level
 No

If yes, please describe and provide reference documents where relevant. [max. 100 words]

Note:

Types of markets for example: Public payment schemes for private land owners; Formal markets with open trading between buyers and sellers; Self-organized private deals.

5. Information and communication		
Main characteristics of informational means	<p>Is forest monitoring in your country sufficient for information and communication needs?</p> <p>If no, please specify:</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> Partially <input type="checkbox"/> No
	<p>Is there public access to forest inventory data?</p> <p>If yes or partially, please specify:</p> <p>a website to answer to standard or specific demands: https://inventaire-forestier.ign.fr/spip.php?rubrique17</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> Partially (e.g. just aggregated data) <input type="checkbox"/> No
	<p>Does an official (governmental) forest-related outreach and communication strategy exist?</p> <p>If yes, please provide reference:</p> <p>National Forest and Wood Programm http://agriculture.gouv.fr/le-programme-national-de-la-foret-et-du-bois-pnfb-veronique-borzeix</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> Partially <input type="checkbox"/> No
	<p>Does a national report on the state of sustainable forest management exist?</p> <p>If yes or partially, please provide reference/link:</p> <p>https://inventaire-forestier.ign.fr/spip.php?article847</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> Partially <input type="checkbox"/> No
	<p>Is there a national platform for stakeholder participation in forest policy development and/or decision-making?</p> <p>If yes or partially, please specify:</p> <p>http://www.laforetbouge.fr/</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> Partially <input type="checkbox"/> No

<p>Significant changes in informational means during last five years</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, please describe and incl. reason/s for the changes [max. 100 words]</p> <p>Implementation of the on-line platform “La Forêt Bouge” providing mapping economic datas</p>
<p>Significant changes in forest related communication during last five years</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, please describe and include reason/s for the changes [max. 100 words]</p> <p>Increasing challenge of big data (mapping data, teledetection and collaborative plateform)</p>
<p>Reporting notes</p>	

2B: Policies, institutions and instruments related to specific criteria

Part 2B requests additional information since the last reporting in 2014 on policies, institutions and instruments for individual criteria for SFM:

- C1. Maintenance and appropriate enhancement of forest resources and their contribution to global carbon cycles;
- C2. Maintenance of forest ecosystem health and vitality;
- C3. Maintenance and encouragement of productive functions of forests (wood and non-wood);
- C4. Maintenance, conservation and appropriate enhancement of biological diversity in forest ecosystems;
- C5. Maintenance and appropriate enhancement of the protective functions in forest management (notably soil and water);
- C6. Maintenance of other socioeconomic functions and conditions.

Criterion 1 Maintenance and appropriate enhancement of forest resources and their contribution to global carbon cycles	
Have policy objectives been formulated with respect to Criterion 1?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) Increasing wood harvest (+ 12 millions m3 in 2026) where natural increase is under exploited (only 50% of annual growth increment is harvested)
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) Maintain and strengthen prevention of risk and control policy. Restore a proper balance between woodland and game. Mitigate the uncertainties arising from climate change. Make forest management more dynamic. Support enhancements of competitiveness. Encourage the use of wood.
What policy tools have been put in place to achieve these objectives (e.g. legal, financial, communication)?	(max. 100 words, please) National Forest and Wood Programm
Please describe achievements in the area of Criterion 1 over the past five years	(max. 100 words, please) Implementation of the on-line platform "La Forêt Bouge" providing mapping economic datas
What are the major challenges in the area of Criterion 1, and the major obstacles to achieving the policy objectives?	(max. 100 words, please) Wood market

Criterion 2 Maintenance of forest health and vitality	
Have policy objectives been formulated with respect to Criterion 2?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) Combine climate change mitigation and forest adaptation.
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) Maintain forest health and vitality monitoring. Restore a proper balance between woodland and game. Mitigate the uncertainties arising from climate change. Make forest management more dynamic. Maintain and strengthen risk prevention and control policy.
What policy tools have been put in place to achieve these objectives (e.g. legal, financial, communication)?	(max. 100 words, please) Implementing a National Plan of storm crisis management.
Please describe achievements in the area of Criterion 2 over the past five years	(max. 100 words, please)
What are the major challenges in the area of Criterion 2, and the major obstacles to achieving the policy objectives?	(max. 100 words, please) Restore a proper balance between woodland and game. Mitigate the uncertainties arising from climate change

Criterion 3 Maintenance and encouragement of productive functions of forests (wood and non-wood)	
Have policy objectives been formulated with respect to Criterion 3?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) Increasing wood harvest (+ 12 millions m3 in 2026)
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) Make forest management more dynamic. Support enhancements of competitiveness. Encourage the use of wood. Adopt an offensive stance in international markets in conjunction with the sector strategy committee (CSF). Seek to ensure optimum interfacing of the different uses of wood in
What policy tools have been	(max. 100 words, please)

put in place to achieve these objectives (e.g. legal, financial, communication)?	Implementation of GIEFF. (Economic and environmental interest forest grouping). Creation of new road and tracks. Financial support to improve forest stand. (Dynamic Bois)
Please describe achievements in the area of Criterion 3 over the past five years	(max. 100 words, please)
What are the major challenges in the area of Criterion 3, and the major obstacles to achieving the policy objectives?	(max. 100 words, please) Wood market

Criterion 4 Maintenance, conservation and appropriate enhancement of biological diversity in forest ecosystems	
Have policy objectives been formulated with respect to Criterion 4?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) Know, preserve and add value to biodiversity
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) To settle a method to assess ecological challenges for projects involving soil occupation changes. Develop biodiversity monitoring. To communicate about protected areas. To develop research and communicate information. To put emphasis on best practices in PRFB. To develop a platform to make an inventory of forest amenities.
What policy tools have been put in place to achieve these objectives (e.g. legal, financial, communication)?	(max. 100 words, please) Implementing Forest Biodiversity platform (PBF), which is a platform bringing together the main forest stakeholders, and which is financed and coordinated by the Ministry of farming and forestry and the Ministry of ecology.
Please describe achievements in the area of Criterion 4 over the past five years	(max. 100 words, please)
What are the major challenges in the area of Criterion 4, and the major obstacles to achieving the policy objectives?	(max. 100 words, please)

Criterion 5 Maintenance and appropriate enhancement of protective functions in forest management (notably soil and water)	
Have policy objectives been formulated with respect to Criterion 5?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) Meet the expectations of the general public and integrate region-wide projects.
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) gain more knowledge of the services provided by functioning forest ecosystems. Anticipate forest fire risk. Mitigate the uncertainties arising from climate change maintain forest stand in mountains to reduce soil erosion
What policy tools have been put in place to achieve these objectives (e.g. legal, financial, communication)?	(max. 100 words, please) Updating regional Protection Scheme against forest fire
Please describe achievements in the area of Criterion 5 over the past five years	(max. 100 words, please)
What are the major challenges in the area of Criterion 5, and the major obstacles to achieving the policy objectives?	(max. 100 words, please) Protection of soil and water quality.

Criterion 6 Maintenance of other socio-economic functions and conditions	
Have policy objectives been formulated with respect to Criterion 6?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please describe the policy objectives, including quantitative targets if any have been formulated	(max. 100 words, please) create value in the context of green economy. Develop synergy between forests and industry.
Please describe any institutional measures taken to achieve these objectives	(max. 100 words, please) Initiate major change in the sector. Stimulate industrial renewal and encourage sustainable use of wood through interministerial efforts, in conjunction with the sector strategy committee. Implement transverse initiatives to benefit the sector as a whole.
What policy tools have been	(max. 100 words, please)

<p>put in place to achieve these objectives (e.g. legal, financial, communication)?</p>	<p>Educate, modernise communication. Organise the links between sector professionals more effectively. Seek to ensure optimum interfacing of the different uses of wood in conjunction with the wood sector strategy committee. Optimise the support provided to the sector. An ambitious national plan Forest and wood research and development and innovation 2025. Strengthen training in the sector, alongside the wood sector strategy committee.</p>
<p>Please describe achievements in the area of Criterion 6 over the past five years</p>	<p>(max. 100 words, please)</p>
<p>What are the major challenges in the area of Criterion 6, and the major obstacles to achieving the policy objectives?</p>	<p>(max. 100 words, please)</p> <p>Energy transition. Wood market.</p>

2C: Supplementary information on selected major issues

If you wish, provide similar brief information (policy objectives/targets, policy instruments, achievements, challenges), on specific areas not sufficiently covered in the sections before.

Possible areas, many of which touch more than one criterion, would include:

- legal/regulatory framework to combat illegal logging and associated trade of forest products
- Promotion of the use of sustainably produced forest products
- Water management and flood control through forests
- Forest recreation
- Sustainable forest workforce
- Occupational safety and health

Note: Delivered in .odt and .pdf format
